

# Judges and Coaches Survey

Dear Judges, Dear Coaches,

Thank you for your work and support to the AI4Resilience program!

As you know, one of the major objectives of AI4Resilience is learning. This survey is a part of these efforts.

We would like to ask each of you to complete the survey **by the 17th of March**.

The survey is divided in two part, each with 4-5 questions. Part 1 has evaluation questions to assess the process and program results. Part 2 has learning questions which will help inform the Pause and Reflect section we are going to have at the end of the months.

Almost all questions are open ended and require some reflections to be answered. Please take the time to respond to them, as your opinion and expertise can provide really valuable insights for us.

Your responses will be kept strictly confidential with identifying information available only to members of the AI4Resilience team who are analyzing the data.

If you have any questions about the survey or AI4Resilience, please contact us at [ai4resilience\\_info@gkinitiative.org](mailto:ai4resilience_info@gkinitiative.org).

Thank you for your time and collaboration!

Your email

I consent to responding to questions regarding the AI4Resilience program. My responses \* will be stored by AI4Resilience in a secure manner. My responses will be kept strictly confidential with identifying information available only to relevant members of the AI4Resilience team.

- Yes, I consent.
- No, I do not consent.

Gender \*

- Male
- Female
- Other
- Prefer not to say

Age group \*

- Under 18
- 18-22
- 23-26
- 27-30
- 31-35
- 36-40
- 41+

### EVALUATION QUESTIONS

Please complete these questions providing any details you know as each question asks.

1) To what extent were you satisfied with the AI4Resilience engagement process? \*

Not Satisfied

- 1
- 2
- 3
- 4
- 5

Very Satisfied

2) Have you developed some new relationship, or improved existing ones, as a results of your engagement with the AI4Resilience program? If yes, please explain which one/s and how. \*

Your answer

3) Do you believe this challenge staged process, alongside the support provided, has supported participants to improve their initial concept-ideas into a system informed solution? \*

- If yes, to what extent do you believe the improvement is due to the AI4Resilience program, please express a percentage, then explain your judgement.

- If no, why not and what could have been done, if anything, to support it.

Your answer

4) Have you observed new relationship development amongst participants - either between them and/or with other relevant stakeholders - throughout the AI4Resilience program as a results of the input they received in the program? \*

- If yes, please provide details and descriptions

- If not, what could have been done to support relationships building?

Your answer

5) Please share any other feedback

- About the PROCESS (onboarding, times, schedule, communications etc)

- About the RESULTS (quality of solutions, innovation, system relevant, relationship, value added etc)

Your answer

6) We would like to invite you for a short 20/30min interview during March-April. Please \* indicate three days & times that could work for you, we will follow up with a Google invite. Thanks!

Your answer

Questions in preparation to P&R

*These questions are not written for evaluation purposes but rather to gather your input for the P&R session. Therefore, please consider them a free space. We are looking for opinions, ideas, feedback, critiques, and more!*

1) In your opinion, did the AI4Resilience staged approach provided the understanding, capacity and connection resources that participants need to support innovators and innovation in a sustainable way? If yes, how / if no, why not? \*

Your answer

2) In your opinion, what worked and what didn't in applying a system sensing approach in the AI4Resilience program? \*

Your answer

3) In your opinion, to what extent did the AI4Resilience program manage to catalyze and/or scale locally relevant humanitarian innovation? \*

Your answer

4) In your opinion, to what extent did the AI4Resilience program facilitate local relationship development to support positive system change? \*
